DREAMS BUSINESS RESOURCES · AI AGENT GENIES PLATFORM · COLD START MODE

DBR Build Your Database Checklist

One-page printable · Phone → LinkedIn → Gmail → Merge → GHL (Dreams Cloud) · May 2026

STEP 1

Phone Contacts

500-2,000+ avg per person

ACTION 1

Clean the list

Filter for business owners, managers, and professionals first. Even personal contacts often own businesses.

ACTION 2

Import to GHL (Dreams Cloud)

Upload the cleaned Excel file into GHL. The Onboarding Agent walks you through it step by step.

ACTION 3

Prioritize business owners

Add a column: Business Owner? Tag Owner, CEO, President, Founder, Partner as Priority for first outreach.

Most people have 500-2,000 contacts and have never thought of them as a business database.

STEP 2

LinkedIn Connections

300-3,000+ avg per professional

ACTION 1

Export your connections

Settings → Data Privacy → Get a copy of your data → Connections. LinkedIn emails you a CSV in ~10 min.

ACTION 2

Filter by title

Sort: Owner, CEO, President, Founder, Partner, Managing Director - your ideal DREAMS Score candidates.

ACTION 3

Import filtered CSV to GHL

Upload the filtered LinkedIn CSV directly into GHL (Dreams Cloud) under Contacts → Import Contacts.

LinkedIn connections convert 3-5x better than cold email - they already accepted your request.

STEP 3

Gmail / Google Contacts

1,000-5,000+ avg Gmail user

ACTION 1

Export from Google

contacts.google.com → Select All → Export → Google CSV. Downloads instantly with every contact.

ACTION 2

Combine all three

Merge Phone + LinkedIn + Gmail into one master Excel file. Remove duplicates. Filter for owners first.

ACTION 3

Tag warm contacts

Flag anyone you've emailed in the last 12 months as Warm. These are your highest-priority outreach targets.

Your Gmail list includes vendors, clients, and colleagues - many are business owners you've lost touch with.

STEP 4 MERGE & CLEAN YOUR MASTER DATABASE

- [ ] Open all three exported CSV/Excel files in Excel or Google Sheets
- [ ] Copy all rows into one master spreadsheet
- [ ] Remove duplicate entries (Data → Remove Duplicates in Excel)
- [ ] Add a column: Business Owner? (Yes / No / Unknown)
- [ ] Filter: Owner, CEO, Founder, Partner → tag as Priority
- [ ] Save as .xlsx — your master database is ready to import
- [ ] Upload to GHL (Dreams Cloud) via Contacts → Import

STEP 5 IMPORT INTO GHL (DREAMS CLOUD) & ACTIVATE PIPELINE

- [ ] Log into GHL (Dreams Cloud) dashboard
- [ ] Go to Contacts → Import Contacts → Upload .xlsx file
- [ ] Map columns: First Name, Last Name, Phone, Email, Title
- [ ] Assign to pipeline: Cold Start → Database Activation
- [ ] Tag Priority contacts (business owners) for first outreach
- [ ] Run the AI Recruiting Agent — it prioritizes your list
- [ ] Begin outreach using the 3-Touch Warm Sequence (Scripts)

! The Real Insight: Most people have 500-2,000 contacts on their phone, 300-3,000 LinkedIn connections, and 1,000-5,000 Gmail contacts - and have never thought of them as a business database. The pipeline isn't empty. It just hasn't been organized yet. Cleaning the list is a good problem - it means you have abundance. The AI Recruiting Agent will help you prioritize who to contact first based on industry, title, and likelihood of qualifying.

500-2,000+	300-3,000+	1,000-5,000+	3-5x
Phone Contacts per person avg	**LinkedIn Connections** per professional avg	**Gmail Contacts** per user avg	**Better Response Rate** vs cold email
